Abstract

A two day workshop on enteriatically transmitted for of Non-A Non-B was held at the National Institute of Health (Bethesda Md)in November, 1986. The purpose of the workshop (which was held by the Fogarty International Centre, the National Institute of Allergy and Infectious Diseases and the World Health Organization) was to review current information of epidemiology, pathology and natural history of disease, to discuss attempts to transmit infection to laboratory animals, and to identify the etiological agent or the agents.

Topics: Hepatitis, Epidemics, Infections, Feces, Viruses, Disease transmission, Etiology, Specimens
